EXPERTISE FOR THE
LIFECYCLE
OF YOUR **DATA**
CENTER

END-TO-END EXPERTS

From designing critical infrastructure to enhancing existing data centers, to building a solid infrastructure foundation for the latest in cloud computing advances, Evolve delivers customized solutions to meet the demands and budget of today's businesses. We work together with clients throughout North America, Canada, and UK to plan, design, build and maintain cost-effective infrastructure solutions for mission critical IT and business needs. We ensure a solid foundation for successful business operations.

SERVICE & SUPPORT AT EVERY POINT IN THE LIFECYCLE

Through a single point of contact, we deliver service and support throughout the lifecycle of your data center strategy. As subject matter experts, we collaborate with each client to clarify their exact requirements and provide the right approach to each issue. Every step of the way, you benefit from proactive and problem-solving professionals who are dedicated to 24/7 customer response. Our knowledgeable experts are always just a phone call away to resolve any issue and ensure your data center is operating at optimum efficiency.

CHOOSE ANY OR ALL OF THE SERVICES YOU NEED

From state of the art data center design to world-class data center deployment, Evolve provides a comprehensive range of services. To meet your requirements, you can choose a complete end-to-end solution or elect individual services for a specific project. Either way, you benefit from custom tailored services expertly delivered.

“I NEED VENDORS THAT I CAN TRUST. THAT’S WHY I KEEP WORKING WITH EVOLVE. THEY NEVER LET ME DOWN AND THEY ALWAYS GO THE EXTRA MILE.” - HOUSTON AREA, UNIVERSITY DATA CENTER MANAGER

SINGLE SOURCE SAVINGS

In addition to the time savings of dealing with a single source for all your data center needs, by bundling all project elements under one roof, Evolve streamlines the process and eliminates middle-man mark-ups, improving cost quality and efficiency control.

ENSURING SUCCESSFUL BUSINESS OPERATIONS WITH EVOLVE'S DATA CENTER MANAGEMENT

Your IT infrastructure is critical to successful operations. At Evolve, we focus on maximizing uptime, connectivity and communication so you can focus on your business. Based upon your criteria, we design, deploy and maintain the entire scope of the facility. What's more, our attentive approach ensures every project remains on budget and construction remains on schedule.

OPTIMIZING PERFORMANCE WITH EVOLVE'S ELERT™ MONITORING SYSTEM

To help keep your data center functioning at peak performance we offer proactive, preventative maintenance and monitoring services with ElerT. A proven platform for monitoring and managing the critical systems that support your data center operations, ElerT instantly notifies pre-determined users when an abnormal condition arises. As such, personnel are notified with the information needed to verify and correct environmental conditions before

the problem escalates, causes failures, and impacts business operations.

ElerT monitors a variety of facility equipment, including your utility input, electrical switch gear, generator, fuel management system, UPS, PDU, CRAC, building control, fire and security system, as well as environmental conditions, pumps, water detection and CCTV.

EVOLVE PREVENTATIVE MAINTENANCE

At Evolve, we approach data centers from a holistic point of view. To ensure your data center remains fully operational, we offer a comprehensive preventative maintenance and service program supported by cross-trained specialists. Our expert team is certified to work on equipment from a range of manufacturers to assure maximum efficiency in problem diagnostics and repair.

In addition, we offer proactive measures, such as routine maintenance and system performance analysis. Combining this preventative capability with our continuous facility monitoring solution and expedited emergency service, clients enjoy a low-risk, highly available infrastructure. This commitment to customer-focused support has resulted in Evolve becoming the single-source solution for mission critical facilities in North America, Canada, and UK.

**WE FOCUS ON MAXIMIZING UPTIME,
CONNECTIVITY AND COMMUNICATION SO
YOU CAN FOCUS ON YOUR BUSINESS.**

"I wanted to take a minute and thank you and Evolve for all the assistance you have given, not to mention your time in expediting services needed for DHL, not only at this time but during our transition, relocating into the new facility. Thank you again for the great service you provide."

Kathy Fluker
DHL Express
Houston, TX

"Excellent, everything seems to be in order and confidence in our emergency power has been restored, thanks to Evolve. Wonderful job, and we really appreciate your honesty."

Jimmy Lewis - Director Plant Operations & Engineering
Christus Jasper Memorial Hospital
Jasper, TX

"We can't begin to thank you all enough for your help. Your efforts have saved our company. Please let everyone at Evolve know how much we appreciate their dedication to getting us up and running."
